

Pipestone County Permit for working within the Right of Way

I hereby request permission to perform the following described work within the right of way,

on Road # _____ located _____ miles (north, south, east, west) of the intersection of _____ and _____ . I understand the following provisions apply as conditions to this permit.

- Excavated areas outside the roadbed shall be backfilled and compacted to the density of the surrounding ground, with any excess material removed or leveled to the contour of the surrounding area. Any vegetation destroyed shall be sodded or seeded.
- Crossing of any roadway shall be done by boring, jacking or similar method if possible.
- When boring, jacking or a similar method is not possible, excavations through the roadbed shall be backfilled with the same type, quality and thickness of the material removed, compacted to the same density of the existing road. Any excavation through a bituminous surfaced road, when permitted, shall require sawing through the existing surface. Any concrete sidewalk, curb, and/or gutter, etc. removed shall be sawed or removed to an existing point. All replacements and repairs shall be completed to the satisfaction of Pipestone County. The applicant will be required to pay for all inspection time when excavating through the roadbed.
- Agricultural tile line crossings shall be placed as recommended in the Minnesota Dept. of Transportation Drainage Manual.
- A performance bond, made payable to the Treasurer of Pipestone County, shall be submitted before work is performed. The amount of bond shall be _____ and will be held by Pipestone County until all work is completed to the satisfaction of Pipestone County.
